COFFEES

Love Coffee Is our own unique blend. It was created by us to bring a significant twist to the morning coffee that we all love. In line with our ethos we love that our beans are ethically sourced and traditionally handled. Most importantly we love that our coffee is locally roasted by Dan and his wife of Chimney Fire Coffee, who began by roasting our beautiful blend in a shed in their back garden. If you love our Love Blend as much as we do, it is also available to take home!
